SECTION 7. HANDLING	AND S	STO	RAGE	· · ,				
Handling								
Precautions for safe handling								
Handle under dry protective gas.	1 - 1 - 1 1		1 I 1	1 1 1 1		н н н		
Keep container tightly sealed.								
Store in cool, dry place in tightly closed			sure good					
Information about protection against ex	xplosions	and fir	es:		-			
Substance/product can reduce the ign	ition temp	erature	e of flamm	able sı	ubstanc	es.		
This substance is an oxidizer and its h	eat of rea	ction w	ith reduci	ng age	nts or c	ombustil	oles may	
cause ignition.	1. j.		1 1 - 1	· · .			11	
Conditions for safe storage, including a	any incom	patibil	ities					
Requirements to be met by storeroom	s and rece	eptacle	es:					
No special requirements.			1 I 1			н н н		
Information about storage in one comr	non stora	ge faci	lity:					
Store away from flammable substance								
Store away from reducing agents.								
Do not store with organic materials.								
Store away from metal powders.	1.1.1		1 I 1	: • •				

Store away from water/moisture.

Further information about storage conditions:						
Store under dry inert gas.						
This product is hygroscopic.			1 1 - 1			
Keep container tightly sealed.						
Store in cool, dry conditions in well-sealed containers.						
Protect from humidity and water.	· · .			· · .		
Specific end use(s)						
No data available					i	
land the second s	1 1 1 1					,
SECTION 8. EXPOSURE CONTROLS/F	EK2C	INAL	-	· · .		
PROTECTION						
Additional information about design of technical systems:						
Properly operating chemical fume hood designed for hazardo	ous chemio	cals an	d having	an avera	age	
face velocity of at least 100 feet per minute.			ı			
Control parameters			1 1			
Components with limit values that require monitoring at the w	orkplace:		н 1 — 1			
None.						
Additional information: No data			1 - 1 1			
Exposure controls	· · · .			· · .		
Personal protective equipment						
Follow typical protective and hygienic practices for handling o	hemicals.					
Keep away from foodstuffs, beverages and feed.						
Remove all soiled and contaminated clothing immediately.						
Wash hands before breaks and at the end of work.	· · .			· · · .		
Avoid contact with the eyes and skin.					1	
Maintain an ergonomically appropriate working environment.	1	1	1 1		,	
Breathing equipment:						
Use suitable respirator when high concentrations are present	-					
Recommended filter device for short term use:	· · · .			· · .		

Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls.													
Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only													
use equipment tested and approved under appropriate government standards.													
Protection of hands: Impervious gloves													
Inspect gloves prior to use.													
Suitability;of gloves,should be by	determined	l both b	y mate	rial and qu	uality, tl	ne latter	of which	may va	ary				
manufacturer.	н 1 — 1					-							
Material of gloves													
Nitrile rubber, NBR		1			1

SECTION 11. TOXICOLOGICAL INFORMATION

Information on toxicological effects		1			1 1 1	. 11						
Acute toxicity:												
The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity data for this												
substance.			•••									
LD/LC50 values that are relevant for classification: Oral LD50 3900 mg/kg (rat)												
Skin irritation or corrosion: Causes skin irritation.		, , ,										
Eye irritation or corrosion: Causes serious eye irritation.												
Sensitization: No sensitizing effects known.												
Germ cell mutagenicity: No effects known.			· · .			· · .						
Carcinogenicity:												
No classification data on carcinogenic properties						, IARC	3					
NTP, OSHA or ACGIH.												
Reproductive toxicity: No effects known.												
Specific target organ system toxicity - repeated ex	kposure	e: No effe	cts kno	ŵ'n.		· · .						

Specific target organ system toxicity - single exposure: May cause respiratory irritation.

Aspiration hazard: No effects known.

Subacute to chronic toxicity: No effects known.

Additional toxicological information:

To the best of our knowledge the acute and chronic toxicity of this substxance is not fully known.

SECTION 12. ECOLOGICAL INFORMATION

Toxicity	; • •							
Aquatic toxicity:								
No data available	· · .							
Persistence and degradability								
No data available								
Bioaccumulative potential	; • •							
No data available								
Mobility in soil	· · ·			· · · ·				
No data available								
Additional ecological information:								
Do not allow undiluted product or large	quantiti	es to re	each gro	undwate	r, watei	courses	, or sewa	age
systems.	· · .			· · .			· · ·	
Avoid transfer into the environment.

Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed.

The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed. Substance is not listed.

Annex XIV of the REACH Regulations (requiring Authorisation for use)Substance is not listed. Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

SECTION 16. OTHER INFORMATION

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH). The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
