Personal protective equipment Follow typical protective and hygienic practices for han	dling chem	icals.	.:	۰.	:	.:
Keep away from foodstuffs, beverages and feed.		:	1		:	1
Remove all soiled and contaminated clothing immediate Wash hands before breaks and at the end of work.	ely.	1 I 1			1 I	
	mont					
Maintain an ergonomically appropriate working environ Breathing equipment:	ment.	1.1.1	.:	· · · .		
Use suitable respirator when high concentrations are p	resent.	;				1

Recommended filter device for short term use:

Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves Inspect gloves prior to use. Suitability of gloves should be determined both by material and quality, the latter of which may vary by manufacturer. Material of gloves Nitrile rubber, NBR Penetration time of glove material (in minutes) 480 Glove thickness 0.11 mm Eye protection: Safety glasses Body protection: Protective work clothing.

SECTION 16. OTHER INFORMATION

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH). The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
