SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substances CAS No. / Substance Name: 1312-81-8 Lanthanum(III) oxide Identification number(s): EC number: 215-200-5

SECTION 4. FIRST AID MEASURES

Description of first aid measures If inhaled: Supply patient with fresh air. If not breathing, provide artificial respiration. Keep patient warm. Seek immediate medical advice. In case of skin contact: Immediately wash with soap and water; rinse thoroughly.Seek immediate medical advice. In case of eye contact: Rinse opened eye for several minutes under running water. Consult a physician. If swallowed:

Requirements to be met b	_				: * *					
No special requirements	,		ooptaon							

Information about storage in one common storage facility:

Store away from oxidizing agents.

Store away from water/moisture.

Store away from mineral acids

Further information about storage conditions:

Store under dry inert gas.

This product is hygroscopic.

Keep container tightly sealed.

Store in cool, dry conditions in well-sealed containers.

Protect from humidity and water.

Specific end use(s) No data available SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and ha face velocity of at least 100 feet per minute.		*

Exposure controls		
Personal protective equipment		
Follow typical protective and hygienic practices for handling chemicals.		
Keep away from foodstuffs, beverages and feed.		1
Remove all soiled and contaminated clothing immediately.		
Wash hands before breaks and at the end of work.		
Avoid contact with the eyes and skin.	·	
Maintain an ergonomically appropriate working environment.		
Breathing equipment:		1
Use suitable respirator when high concentrations are present.		
Recommended filter device for short term use:		
Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to en	naineerina co	ontrol
Risk assessment should be performed to determine if air-purifying respirators are a	0 0	
use equipment tested and approved under appropriate government standards.		Ciny
Protection of hands: Impervious gloves Inspect gloves prior to use.		

Suitability of gloves should be determined both by material and quality, the latter of which may vary

Hazardous decomposition products:

SECTION 11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity

data for this substance.

LD/LC50 values that are relevant for classification: Oral LD50 >8500 mg/kg (rat)

Skin irritation or corrosion: Causes skin irritation.

Eye irritation or corrosion: Causes serious eye damage.

Sensitization: No sensitizing effects known.

Germ cell mutagenicity: No effects known.

Carcinogenicity: No classification data on carcinogenic properties of this material is available from the

EPA, IARC, NTP, OSHA or ACGIH.

Reproductive toxicity: No effects known.

Specific target organ system toxicity - repeated exposure: No effects known.

Specific target organ system toxicity - single exposure: May cause respiratory irritation.

Aspiration hazard: No effects known.

Subacute to chronic toxicity: No effects known.

Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this

substance is not fully known

SECTION 12. ECOLOGICAL INFORMATION
