SECTION 7. HANDLING AND STORAGE						
Handling	1		1	1	:	}
Precautions for safe handling						'
Keep container tightly sealed.						
Store in cool, dry place in tightly closed containers.	111			1.1.1	14	
Information about protection against explosions and fires:					i.	
The product is not flammable						
Conditions for safe storage, including any incompatibilities					.1	'
Storage						
Requirements to be met by storerooms and receptacles:		1				
No special requirements.		1			e ¹	-
Information about storage in one common storage facility:			1			
Do not store together with acids.	;	. '				
Store away from oxidizing agents.						
Further information about storage conditions:						
Keep container tightly sealed.	1				:	

Store in cool, dry conditions in well sealed containers.

Specific end use(s)

No further relevant information available.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Additional information about design of technical systems:

Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment

General protective and hygienic measures

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.Remove all soiled and contaminated clothing immediately.

Wash hands before breaks and at the end of work.

Maintain an ergonomically appropriate working environment.

Breathing equipment:

Use suitable respirator when high concentrations are present.

Recommended filter device for short term use:

Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards.

Protection of hands;

Impervious gloves

Check protective gloves prior to each use for their proper condition.

The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary

from manufacturer to manufacturer.	: * *		н н н		14			14	
Material of gloves	1	. '			:	1	1
