Danger

Hazard statements

H261 In contact with water releases flammable gas.

Precautionary statements

P231+P232 Handle under inert gas. Protect from moisture.

P280 Wear protective gloves/protective clothing/eye protection/face protection.P233 Keep container tightly closed.

P370+P378 In case of fire: Use for extinction: Special powder for metal fires.

P402+P404 Store in a dry place. Store in a closed container.

P501 Dispose of contents/container in ac	cordar	nce with	n local/reg	ional/	1			1	•••

SECTION 4. FIRST AID MEASURES

If inhaled: Supply patient with fresh air. If not breathing, provide artificial respiration. Keep patient warn	
Seek immediate medical advice.	
In case of skin contact:	
Immediately wash with soap and water; rinse thoroughly.	
Seek immediate medical advice.	
In case of eye contact:	
Rinse opened eye for several minutes under running water. Consult a physician.	
If swallowed:	
Seek medical treatment.	
Information for doctor	
Most important symptoms and effects, both acute and delayed

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: None. Additional information: No data Exposure controls Personal protective equipment Follow typical protective and hygienic practices for handling chemicals. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves Inspect gloves prior to use.

Suitability of gloves shou by	ıld be c	letermined	l both b	y mate	rial and qu	uality, tł	ne lattei	of which	may va	ry
