## SECTION 4. FIRST AID MEASURES

Description of first aid measures If inhaled: Supply fresh air. If not breathing, provide artificial respiration. Keep patient warm. Seek immediate medical advice. In case of skin contact: Immediately wash with soap and water; rinse thoroughly.Seek immediate medical advice. In case of eye contact: Rinse opened eye for several minutes under running water. Consult a physician. If swallowed:

		i i		1		. '

SECTION 5. FIREF						.:		;••	.:	:
Extinguishing media										

Suitable extinguishing media Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol

resistant foam.

Special hazards arising from the substance or mixture
If this product is involved in a fire, the following can be released:
Carbon monoxide and carbon dioxide
Advice for firefighters
Protective equipment:
Wear self-contained respirator.

Wear fully protective impervious suit.

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency pro	cedure	S	1		
Wear protective equipment. Keep unprotected persons away.	· ·				
Ensure adequate ventilation Keep away from ignition sources	1	.:	.:	1	
Environmental precautions:				; • •	.:
Do not allow product to reach sewage system or any water cour					
Methods and material for containment and cleanup:	н н н			1 - 1 1	

Absorb with liquid-binding material (sand	, diatom	nite, aci	d binders,	univer	sal bind	lers, sawd	lust).		
Ensure adequate ventilation.									
Prevention of secondary hazards:		.:							,
Keep away from ignition sources.									
Reference to other sections

Keep ignition sources away.	: • •	.1	1 - 1 1		.:	н н н	111		
Conditions for safe storage, including any	/ incom	patibilit	ies						
Storage									
Requirements to be met by storerooms a	nd rece	ptacles	):			.:			
Store in a cool location.									
Information about storage in one commo	n storag	ge facili	ty:						
Do not store together with acids.									,
Store away from oxidizing agents.			:						
Store away from halogens.	;			i					
Store away from acid anhydrides.		1				н н н		;	,
Further information about storage condition	ons:								
Keep container tightly sealed.			1 1 - 1	1 - 1 1			н н н		

Store in cool, dry conditions in well-sealed containers. Specific end use(s) No information available.

# SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average. face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: 67-63-0 2-Propanol (100.0%) PEL (USA) Long-term value: 980 mg/m<sup>3</sup>, 400 ppm REL (USA) Short-term value: 1225 mg/m<sup>3</sup>, 500 ppm Long-term value: 980 mg/m<sup>3</sup>, 400 ppm TLV (USA) Short-term value: 984 mg/m<sup>3</sup>, 400 ppm Long-term value: 492 mg/m<sup>3</sup>, 200 ppm BEI EL (Canada) Short-term value: 400 ppm Long-term value: 200 ppm EV (Canada) Short-term value: 400 ppm Long-term value: 200 ppm Ingredients with biological limit values: 67-63-0 2-Propanol (100.0%) BEI (USA) 40 mg/L Medium: urine

Time: end of shift at end of workweek

Parameter: Acetone (background, nonspecific)

Additional information:

No data

Exposure controls

Personal protective equipment

Follow typical general protective and industrial hygiene measures for handling chemicals. Keep away from foodstuffs, beverages and feed.

Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work.

Avoid contact with the eyes.

Avoid contact with the eyes and skin.

Breathing equipment:

Use suitable respirator when high concentrations are present.

Recommended filter device for short term use:

Use a respirator with multi-purpose combination (US) or type ABEK (EN 14387) as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards such as NIOSH (USA) or CEN (EU).

Protection of hands:

Impervious gloves

Inspect gloves prior to use.

Suitability of gloves should be determined both by material and quality, the latter of which may vary

by

manufacturer.

Material of gloves

Nitrile rubber, NBR

Penetration time of glove material (in minutes)

480

### **SECTION 16. OTHER INFORMATION**

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH). The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product.
